Receives Recognition at Last.
For the first time in history the agricultural interests have received due recognition at a World's Fair and at St. Louis the largest building on the grounds is devoted to this great foundation of all prosperity prosperity. Nearly twenty acres are covered by this one building containing every conceivable exhibit of farm products, the methods by which the same are produced, the latest facilities for handling them afterwards—in fact to visit this building is the same as taking a post graduate course in farming.

Then there is Machinery Hall, a mighty structure covering acres, containing every known implement, ancient and modern.
Many have already gone home from this greatest of Expositions with ideas that will help them better their condition many times.
You ought to go. Your children ought to go. Better than years of school will it be for them, for the whole world has placed its achievements in array for their inspection. Your wife should go. She has worked hard with you for all these years and earned a change. She will never get through thanking you for the opportunity you provide her of seeing perhaps the last World's Fair for many years.
The rates are low. It don't take long to go. See our display advertisement in another column. The Rock Island is the favorite route. Write to

Saved His Life.
J. W. Davenport, Wingo, Ky., writes June 14, 1902: "I want to tell you I believe Ballard's Snow Liniment saved my life. I was under the treatment of two doctors, and they told me one of my lungs was entirely gone, and the other badly affected. I also had a lump in my side. I don't think that I could have lived over two months longer. I was induced by a friend to try Ballard's Snow Liniment. The first application gave me great relief; two fifty cent bottles cured me sound and well. It is a wonderful medicine and I recommend it to suffering humanity." 25c, 50c, \$1.00
